Using Computers in the Workplace

1.1	Office Equipment.....	6
1.2	Data Storage.....	10
1.3	Safe Work Strategies.....	14
1.4	Workplace Protocols.....	17
1.5	Introduction to Microsoft Excel.....	18

Create Spreadsheets

2.1	Plan Spreadsheet Design.....	34
2.2	Spreadsheet Information Requirements.....	36
2.3	Spreadsheet Style and Layout Requirements.....	38
2.4	Style Sheets and Automatic Functions.....	40

Use Spreadsheets

3.1	Enter, Check and Amend Data.....	56
3.2	Format Spreadsheet, Adjust Layout.....	65
3.3	Test Formulas to Confirm Output.....	84
3.4	Overcome Problems with Spreadsheet Design and Production.....	87
3.5	Complex Formulas.....	90
3.6	Data Analysis Add-ins for Excel.....	100
3.7	Time Series Analysis and Forecasting in Excel.....	110

Automate and Standardise Spreadsheet Operation

4.1	Evaluate Tasks Appropriate for Automation.....	134
4.2	Create, Use and Edit Macros.....	148

Develop a Linked Spreadsheet Solution

5.1	Utilise Spreadsheet to Meet Requirements.....	162
5.2	Link Spreadsheets.....	176
5.3	Format Cells and Use Data Attributes.....	183
5.4	Test Formulas.....	184

Produce Charts

6.1	Select Appropriate Chart Type and Design.....	192
6.2	Create Charts Using Appropriate Data Ranges.....	193
6.3	Modify Chart Type and Layout.....	195

Finalise Spreadsheets

7.1	Preview, Adjust and Print Spreadsheet and Charts.....	212
7.2	Name and Store Spreadsheet.....	217
7.3	Store Spreadsheet without Data Loss or Damage.....	217

Index.....	220
